Subject Permit Shield discussion-MT

Hi Dave;

Tina informed me that you and probably somebody from EPA permits & legal would be on the phone to answer questions about the permit shield issue for our next stakeholder nutrient meeting.

I think you should be available around 9:30 to 10:00, as you are the first main item on the agenda. The link below goes to the agenda.

I am still working out the conference call details, but I will get back to you as soon as I know.

Thanks,

Mike Suplee
